DETAILED ACTION

The amendments to the claims filed 04/05/2007 have been entered. Any rejection/objection from the previous office action dated 12/08/2006 not addressed in the office action below has been withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 6 and 10-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hossel et al. (US 2001/0021375 A1), for the reasons set forth in the office action dated 12/08/2006.

Claims 6 and 8-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hossel et al. (US 2001/0021375 A1) in view of either Tropsch et al. (US

5,869,032,) or Hossel et al. (US 6,191,188 B1), for the reasons set forth in the office action dated 12/08/2006.

Applicants arguments/remarks filed 04/05/2007 have been fully considered but are not persuasive.

Applicant asserts that the polymers of Hosel '375 are employed exclusively in quarternized form, which is said to be different from applicants claimed polymer, which comprises unquarternized VI monomer units. Applicants state that '375 would not have allowed one skilled in the art to chose nonquarternized polymers thus the rejections should be withdrawn.

The relevance of these assertions is unclear. Firstly the transitional term "comprising", which is synonymous with "including", "containing", or "characterized by", is inclusive or open ended and does not exclude additional elements or method steps recited in the prior art. *Invitrogen Corp. v. Biocrest Mfg., L.P.*, 327 F.3d 1364, 1368, 66 USPQ2d 1631, 1634 (Fed. Cir. 2003), therefore the limitation that the polymer comprises monomers A-D and polymer E does not preclude a quarternized polymer. A quarternized polymer is still a polymer and applicant's currently amended claims do not preclude quarternized polymers. Secondly even if applicants provided a proviso that the polymers are not in quarternized form Hossel would still read on applicants claimed invention because the copolymer can be partially quarternized, thus at least some of the copolymer would be in unquarternized form.

Conclusion

No claims are allowed at this time.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
